Subject: RE: Former Amphenol - Draft Ambient Air Investigation Summary Report

Hi Carolyn. I wanted to let you know that we will send you an updated Draft Ambient Air Report later today once I get back with my meeting with the City of Franklin DPW. I am meeting with Rick Littleton this morning to discuss the ROW permitting process, ROW limits, and to obtain/confirm utility line information.

The updated report will include slightly revised text, the new laboratory analytical results table, the new lab and 3rd party validation reports, an updated photographic log, and key information pertaining to the recently installed vapor treatment system. Please let me know if you have further questions or need anything else.

Sincerely,

Bradley E. Gentry, LPG

Subject: Former Amphenol - Draft Ambient Air Investigation Summary Report

Carolyn

Please find attached the Draft Ambient Air Investigation Summary Report. This report is only a draft version and thus should not be considered the final version of this report. Due to the size of the Level IV package supplied by the laboratory, I did not include all of the Level IV backup as part of this submittal. It will be included in the final report though and please let me know if you need me to send it to you in the interim.

Please contact me with questions or if you need anything else.

Sincerely,

Bradley E. Gentry, LPG
